

AGROCHEMICALS APPROVED BY THE TOBACCO RESEARCH BOARD: 10 FEBRUARY 2025

The Tobacco Research Board as mandated by the Tobacco Marketing and Levy Act [Chapter 18:20] continually tests, approves and monitors all Crop Protection Agents (CPAs) for use on tobacco under the Pesticide Approval Scheme Service (PASS). The Act further states that: "No person shall treat any tobacco with a remedy which is not registered nor reap or offer for sale any tobacco treated with a non-registered remedy" (Sec. 65).

Furthermore, "Any tobacco so treated will be destroyed without compensation to the grower" (Sec. 66), and this Legislation has been used to destroy tobacco in the field or offered for sale where the regulations are infringed.

AGROCHEMICALS APPROVED BY THE TOBACCO RESEARCH BOARD: 10 FEBRUARY 2025

As over 90% of the Zimbabwean tobacco crop is exported, the tobacco must meet stringent international agrochemical regulations for international acceptance and maintenance of markets especially in an increasingly competitive global market. Furthermore, in compliance with global health standards, correct and safe use of crop protection agents as well as good agronomic practices in tobacco production are key to sustainable agriculture.

The agrochemicals approved for use on tobacco by the Tobacco Research Board during the first quarter of 2025 are shown in Table 1. Any agrochemical not appearing in the table is either not currently countenanced by the TRB or has been removed from the list of approved agrochemicals based on the provisions of the new Pesticide Approval Scheme Service which came into effect on 1 July 2011.

AGROCHEMICALS APPROVED BY THE TOBACCO RESEARCH BOARD: 10 FEBRUARY 2025

The list of agrochemicals which have been withdrawn from use on tobacco and which TRB no longer approves or whose approvals will not be renewed are shown in Table 2.

If you have any queries regarding the above, or require further information, please feel free to contact, Kutsaga Research Station on VOIP 08688002604 or Email: kutsaga@kutsaga.co.zw or visit Kutsaga Research Station, Airport Ring Road, Harare.

AGROCHEMICALS APPROVED BY THE TOBACCO RESEARCH BOARD: 10 FEBRUARY 2025

TABLE 2: AGROCHEMICALS WHICH ARE NO LONGER RECOMMENDED FOR USE ON TOBACCO

ACTIVE INGREDIENT	CATEGORY
Aldicarb	Nematicide
Acephate	Insecticide
Ethyl Di-bromide	Fumigant
Fenvalerate	Insecticide
Methamidophos	Insecticide
Monocrotophos	Insecticide
Thiodicarb	Insecticide
Benomyl	Fungicide
Alachlor	Herbicide
Dimethenamid	Herbicide
Metolachlor	Herbicide
Trifluralin	Herbicide
Butralin	Growth Regulant
Chlorpyrifos	Insecticide
Methomyl	Insecticide
Pendimethalin	Suckercide

Sent by Kutsaga as a service to growers to ensure sustainable and responsible tobacco production.
